Staff Changes

As you may know, most of our staff are attending college at the University of Oklahoma and a new semester will bring about some staffing changes, as many of them have moved on to new endeavors! You may see quite a few new faces at your child's program. A few sites have new Site Directors and other sites have new staff members. Please be patient with the changes in staff and note that it may be challenging for some children to adjust. Because we know that changes are hard, we will minimize the changes in schedule/routine as much as possible. We encourage you to meet the new staff and Site Directors at your After School Program. Feel free to visit with your Site Director about any concerns. Comments, or compliments you have about the program. Any questions that cannot be addressed at the site can be voiced at the main office of The Community After School Program.

We're on the Web!

All CASP programs, including the CASP main Office, will be OPEN on the NPS and RH make-up days.
